### **Reasons for Allowance**

Claims 1-4 and 6-41 are allowed for the following reasons:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Pat. No. 5,546,482 to Cordova et al.

Independent claims 1, 15, 17 and 31 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious a polymeric potting material comprising a plurality of introduced voids that promote an increase in compressibility of the polymeric potting material wherein one or more of the plurality of introduced voids are located between the first and second coil portion/layer in combination with the rest of the limitations of the base claim.

Claims 2-4, 6-14, 23-27, 33, 34, 41 and 42; 16, 28, 29, 35-36; 18-22, 30, 37-38; 32, 39 and 40 depend on claims 1, 15, 17 and 31 respectively and therefore they are also allowed.

Cordova et al. describe a polymeric potting material encapsulating a fiber optic sensor coil for a fiber optic gyroscope. However, the reference is silent with respect to the introduced voids.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
